Adaptations to the materials are permitted for use within the scope of the purchased license.

Permission to adapt the materials for use within the purchased license does not include permission to distribute or sell derivative products based on the materials.

5. License Types and Usage Rights

5.1 Classroom License

This license permits use:

- in one class or educational group;
- at one school location;
- under the responsibility of one teacher, educator, or facilitator.

A Classroom License applies only to the class or educational group and school location for which it was purchased. Sharing files with colleagues, other teachers, or other classes is not covered by this license.

The license may not be transferred or taken to another school location or organization if the teacher, educator, or facilitator moves to another school location or organization. A new license is required for use at another school location.

5.2 School License

This license permits use:

- at one school location;
- in up to 5 classes;
- with up to 40 students per class.

The materials may be shared within that school location with staff members involved in providing education at that school location.

A School License is valid for one physical school location only. Use at multiple locations operated by the same school district, academy trust, school group, foundation, or other organization requires an additional license or an Organization License.

The School License remains tied to the school location for which it was purchased and may not be transferred to another location or organization.

5.3 Organization License

Use across multiple school locations, school districts, academy trusts, school groups, foundations, practices, or other organizations is not covered by a School License.

An Organization License is required for such use. The scope, duration, and other terms of an Organization License are agreed upon separately. For licensing inquiries, please contact hello@thecuriousmindexpedition.com.

The Organization License applies only to products for which a Classroom License or School License is offered on the product page. The Organization License does not apply to the products listed in Section 5.4.

5.4 Guides, Conversation Sheets, and Posters

The usage rights below apply to these products. The Classroom License, School License, and Organization License do not apply.

Purchase by an individual

An individual purchaser may use the materials for their own children. An individual professional may personally use the materials repeatedly with children, students, or clients whom they support as part of their professional work.

The materials may be viewed and discussed together with people directly involved during a meeting or support session, provided that no digital or printed copy is provided or left behind.

The materials may not be shared with or left with colleagues, schools, employers, practices, or other professionals.

Purchase by a school or practice

When purchased by a school or practice, the materials may be used and shared by staff within one location. The usage rights remain tied to that location. Staff may not take the materials with them or use them elsewhere when they leave the location or organization.

For each additional location, the product must be purchased again. The Organization License under Section 5.3 does not apply.

Completed documents

A completed conversation sheet or other page specifically designed to be completed for that purpose within the product may be shared with people directly involved with that specific child. It may be used only for that child and may not be shared further or reused for other children.

Posters

Posters may be printed multiple times within the permitted user group. The digital file may not be shared outside that user group.

5.5 License Duration

A Classroom License and School License are **valid for three years** from the date of purchase, unless expressly stated otherwise at the time of purchase.

During this period, the materials may be used within the class, educational group, or school location for which the license was purchased, subject to the limits of the applicable license type.

Changes in the students enrolled in those classes or educational groups do not affect the validity of the license.

A Classroom License or School License may not be transferred to another school location or organization.

After a Classroom License or School License expires, continued use requires renewal of the license or the purchase of a new license.

The duration of an Organization License is agreed upon separately.

For guides, conversation sheets, and posters as referred to in Section 5.4, the right to use remains valid indefinitely for the purchased edition, unless expressly stated otherwise at the time of purchase.

6. Updates and New Editions

The Curious Mind Expedition may improve, update, or correct its materials.

Minor improvements or corrections may be made available at no additional charge. New editions, expansions, or additional programs may be offered as separate products.

Purchase of a product does not automatically entitle the purchaser to future new editions or substantially expanded versions unless expressly stated otherwise at the time of purchase.

This does not affect statutory rights where a digital product does not conform to the contract.

7. Violations

If these License Terms are violated, The Curious Mind Expedition reserves the right to take appropriate measures to protect its intellectual property.

Where there are reasonable grounds to suspect use outside the scope of the purchased license, The Curious Mind Expedition may request that the user demonstrate that the materials are being used in accordance with these License Terms.

8. Governing Law

These License Terms are governed by the laws of the Netherlands, except where mandatory applicable law provides otherwise.

Statutory rights and exceptions that cannot be excluded or limited by contract under applicable law remain unaffected.

Disputes will be submitted to the competent courts in the Netherlands, unless mandatory applicable law provides that another court has jurisdiction.

9. Severability

If any provision of these License Terms is found to be invalid or unenforceable, the remaining provisions will remain in full force and effect.
